CyberSecurityEasy.com LLC Features on USA GLOBAL TV ® & RADIO in a Groundbreaking Episode on Dr. Feliks Kravets

Buffalo Grove, IL (February 1, 2024) – At a time when digital interactions shape our daily lives, the emphasis on cyber safety and social engineering awareness is paramount. Addressing this critical need, CyberSecurityEasy.com LLC took center stage in an insightful episode of THE WISE ONES podcast on USA GLOBAL TV ® & RADIO, with the company's founder and head of coaching, Dr. Feliks Kravets. Esteemed interviewer Mr. Red O'Laughlin navigated the conversation through the intricate landscape of cyber safety and social engineering.

CyberSecurityEasy.com LLC's initiative is open to massively supporting the community by providing cyber safety coaching and improving social engineering awareness. The company's goal is to make social engineering concepts of cybersecurity easier to understand. The company's commitment is to bolster cyber safety and social engineering awareness across various communities. The company currently offers coaching on cyber safety and social engineering awareness at local senior facilities and businesses. It is also active in the educational arena.

“We believe the level of cyber safety awareness and understanding of social engineering concepts is too low. We want to make it easier for people to recognize the threat and to learn more about information safety, including emails, SMS messaging, phone calls, passwords, and more, through our coaching,” said Dr. Kravets.
